

Therapist Summary

Priya S. · 2026-08-13

Therapist Summary — Priya S. (FICTIONAL DEMO DATA) (2026-08-13)

Working document for the professional team — not for family distribution.

Relevant passport summary

Communication: highly articulate in structured settings, goes quiet in unstructured social time; masks heavily. Triggers: being singled out, unstructured social time, ambiguous instructions. What works: private feedback, assigned roles, advance warning, art as regulation.

Goal progress

Goal	Evidence this session	Status	Recommended next target
Contributing one idea in group work (assigned role)	Fact-checker role: 1 idea after one prompt, 1 freely at 11:38	Met	
Using a private help channel instead of struggling silently	Asked a follow-up question in writing after the session	Progressing	

Session counts: Group-contribution prompts needed: 1 (11:15); Unprompted group contribution: 1 (11:38); Written private feedback moments: 1 (11:30 note).

Patterns & trends

Baseline observations (descriptive, correlational — never a verdict). Reassess after ≥3 sessions. See passport Patterns section for the event table.

Session log reference

Session 2026-08-13 — Contribute one idea in a group setting, with a pre-assigned role, no more than 2 prompts — outcome MET. Approved by K. Wong, School Social Worker (observing; class taught by Ms. Liu).

Open questions for the team

- The 2-second look-down before answering at 11:15 — is this consistent with her private feedback preference, or a pattern to watch in future group sessions?
- 11:18: Ms. Liu's acknowledgement was public. Priya showed no visible response. No interpretation; recorded for worker awareness only.

Recommended next step

Continue the same script for one more session; introduce one new step, then re-check goal progress.
